

Roodyn

Subcellular Biochemistry

Cortical Actin Structures and Their Relationship to Mammalian Cell Movements.-
Fluorescence Probes Unravel Asymmetric Structure of Membranes.- Functional Aspects
of Gram-Negative Cell Surfaces.- Biochemistry of the Sarcolemma.- Membrane Fusion.

Artikelnummer: 9781489917003
Medium: Buch
ISBN: 978-1-4899-1700-3
Verlag: Springer
Erscheinungstermin: 22.08.2013
Sprache(n): Englisch
Auflage: Erscheinungsjahr 2013
Serie: Subcellular Biochemistry
Produktform: Kartoniert
Gewicht: 476 g
Seiten: 294
Format (B x H): 155 x 235 mm
