

Globalization and Crime

Now in its third edition, *Globalization & Crime* provides students with a comprehensive overview of the essential themes and conceptual debates surrounding globalization and global criminology. It examines established topics such as human trafficking and smuggling, migration and organised crime. But also explores modern issues such as the refugee crisis in Europe, cyber-hacking and enforcement, and the failure of Internet Service Providers to take responsibility for online content. The third edition has been significantly updated with new content and examples, along with modern case studies, such as the political context surrounding the development of ISIS, organ trafficking, and an anti-globalization backlash in the UK and US. It also features two new chapters: 'Global Ecological Destruction' – An investigation into the development of environmental criminology, and 'Towards a Cosmopolitan Criminology?' – An overview of the possibilities for establishing a global criminology and coverage of the emerging issues to consider for the future. Ideal reading for undergraduate and postgraduate students of criminology, globalization and sociology.

Now in its third edition, *Globalization & Crime* provides students with a comprehensive overview of the essential themes and conceptual debates surrounding globalization and global criminology. The new edition features two new chapters and a collection of modern case-studies.
