Beyond the Virus

Multidisciplinary and International Perspectives on Inequalities Raised by Covid-19

As the COVID-19 pandemic has unfolded, stark social inequalities have increasingly been revealed and, in many cases, exacerbated by the global health crisis. This book explores these inequalities, identifying three thematic strands: power and governance, gender and marginalized communities. By examining these three themes in relation to the effects of the pandemic, the book uncovers how unequal the pandemic truly is. It brings together invaluable insights from a range of international scholars across multiple disciplines to critically analyse how these inequalities have played out in the context of COVID-19 as a first step towards achieving social justice.
