

mySAP Technology Roadmap

Where, when and how to incorporate mySAP Technology into your IT landscape

This book finally sheds light on mySAP Technology. It explains what mySAP Technology is, describes the new technological strategy of SAP, and gives insight into how SAP system landscapes will look in the future and how they will communicate with other systems. mySAP Technology is made up of three components: SAP Web Application Server, Exchange Infrastructure, and Enterprise Portal. The structures of these three components are explained and their new tools and components are examined in detail. You will find information on connecting the SAP system to the Internet, business collaboration using web services, the new web screen GUI technology, and integrated knowledge management with SAP Enterprise Portal and SAP BW. In addition, each chapter contains notes on exemplary configuration, customizing, and programming.
