

Plunkett's Computers, Hardware & Software Industry Almanac 2019: Computers, Hardware & Software Industry Market Research, Statistics, Trends and Lead

Formally Plunkett's InfoTech Industry Almanac, this book presents a complete analysis of the technology business, including hardware, software, networks, computers, peripherals, services and global trade. This market research tool includes our analysis of the major trends affecting the industry, from the global PC and server market, to consumer and enterprise software, to super computers, open systems such as Linux, web services and network equipment. In addition, we provide major statistical tables covering the industry, from computer sector revenues, to broadband subscribers, to semiconductor industry production. No other source provides this book's easy-to-understand comparisons of growth, expenditures, technologies, imports/exports, corporations, research and other vital subjects. You get our in-depth profiles on the top 500 global InfoTech companies- objective analysis of the largest and most exciting companies in: Computer Hardware, Computer Software, Internet Services, E-Commerce, Networking, Semiconductors, Memory, Storage, Information Management and Data Processing. Our research effort includes an exhaustive study of new technologies and discussions with experts at dozens of innovative tech companies. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package.
