

Digital Media and Wireless Communications in Developing Nations

Agriculture, Education, and the Economic Sector

Digital Media and Wireless Communication in Developing Nations: Agriculture, Education, and the Economic Sector explores how digital media and wireless communication, especially mobile phones and social media platforms, offer concrete opportunities for developing countries to transform different sectors of their economies. The volume focuses on the agricultural, economic, and education sectors. The chapter authors, mostly from Africa and India, provide a wealth of information on recent innovations, the opportunities they provide, challenges faced, and the direction of future research in digital media and wireless communication to leverage transformation in developing countries. The volume provides important research on digital media and wireless communication within the context of developing countries that will be very useful for professionals from academia, government agencies, NGOs, technologists, entrepreneurs and investors, and others.
