

## Green Chemistry Series Set

2009-2014

A collection of books edited and written by leading international scientists working in the field, the Green Chemistry Series Set provides an authoritative and definitive collection of reference guides for graduate and postgraduate students and researchers devoted to coverage of cutting-edge green chemistry. The books are invaluable to industrialists, researchers and academics worldwide and anyone interested in the practical means that are being used to reduce the environmental impact of chemical processes and products.
