Being a Sperm Donor

Masculinity, Sexuality, and Biosociality in Denmark

What does it mean to be a man in our biomedical day and age? Through ethnographic explorations of the everyday lives of Danish sperm donors, *Being a Sperm Donor* explores how masculinity and sexuality are reconfigured in a time in which the norms and logics of (reproductive) biomedicine have become ordinary. It investigates men's moral reasoning regarding donation, their handling of transgressive experiences at the sperm bank, and their negotiations of gender, sexuality, intimacy, and relatedness, showing how the socio-cultural and political dimensions of (reproductive) biomedicine become intertwined with men's intimate sense of self.

First book length ethnography on (Danish) sperm donors Bringing medical anthropology/sociology in dialogue with queer-feminist analyses of gender and sexuality In depth insights into the interplay between male identity and (reproductive) biomedicine
