

Chronotopic Identity Work

Sociolinguistic Analyses of Cultural and Linguistic Phenomena in Time and Space

The concept of chronotopicity is increasingly used in sociolinguistic theorizing as a new way of looking at context and scale in studies of language, culture and identity. This volume brings together empirical work that puts flesh on the bones of this rather abstract chronotopical theorizing, especially focusing on the discursive construction of chronotopic identities. The case studies in this volume address chronotopic identity work in several sites (in Denmark, Indonesia, Mongolia, China, Belgium and The Netherlands). The book will be of interest to students and researchers in applied linguistics and sociolinguistics, as well as related fields such as anthropology, sociology and cultural studies.
