Education Studies

An Issues-based Approach

Education Studies continues to grow as a popular undergraduate area of study. This core text addresses themes common to all Education Studies courses. It benefits from a large list of contributors from key institutions. This second edition includes chapters on education and employment, new media and sex and relationships education and is fully revised and updated. For each topic, an overview and discussion are accompanied by features such as Research and Pause for Thought boxes to promote reflection and analysis and to encourage the reader to engage with the text.
