

The Qur'an

This new translation of the Qur'an is specifically designed for use in the college classroom, and offers students and instructors, as well as general readers, a one-volume resource comparable to what is available for the Jewish and Christian scriptures. It presents a reliable rendering into contemporary English of the artistry and power of the original Arabic, along with a wealth of supplementary annotations which will illuminate the text for first-time readers, yet still prove valuable to those long familiar with the Qur'an. These notes are replete with cross references, both internally to the Qur'an as well as externally to the scriptures of Judaism and Christianity (including non-canonical scriptures). In addition, transliterated Arabic is supplied for key Qur'anic terms, alternative renderings into English are offered where appropriate, and important historical and linguistic information is provided for a richer understanding and deeper appreciation of the text. Finally, this new edition contains an index to the Qur'an much more comprehensive than any other now on the market. The index, along with a new introduction, set of maps, chronological table, and guide to the pronunciation of Arabic, makes this the edition of the Qur'an all English-speaking students of religion - beginning as well as advanced - will want to possess for their exploration and understanding of Islam's central text.

This new, annotated translation of the Qur'an is specifically designed to meet the needs of students of religion, and provides them with a one-volume resource comparable to what is available for the Jewish and Christian scriptures. The meticulously crafted translation affords readers not only a better sense of what the Qur'an says, but how it says it, in a rendition that strives to remain faithful to the way it was originally expressed. Accompanying the translation is an extensive set of annotations. These are keyed to the text for ready reference, and divided according to their boldface topical headings at the bottom of each page. The annotations offer a wealth of linguistic and historical detail to enhance the understanding and appreciation of the text. They also contain abundant references to parallel passages within the Qur'an, as well as comparatively among the 'scriptures' of Judaism and Christianity. With an introduction, map, timeline, guide to further reading, and comprehensive index, this is the edition of the Qur'an all students of religion - beginning as well as advanced - will want to possess for their exploration of Islam's central text.
