

National Security Risks: Immediate Challenges Before Summer 2012

This handbook presents policy-makers and practitioners with a final opportunity to make critical changes to optimise national security, months before the Opening Ceremony of the biggest peacetime event to take place in the UK. Comprehensive in scope, this is the first document to encompass all five official inquiries into the 7 July 2005 London Bombings. It also offers its own analysis of the attacks by Anders Breivik in Norway on 22 July 2011 and the August 2011 England Riots. It covers all key threats and makes many important recommendations that must be urgently addressed before Summer 2012.
