11+ Tuition Guides: Non Verbal Ability 2D Tests

An Essential Guide to 2D Testing! Non-Verbal Ability Prep for CEM 11+ Developed and classroom-tested by an education specialist, the 2D Tests Workbook offers an essential range of material to help pupils think in 2D, recognise patterns, sharpen maths and logic skills, and familiarise themselves with all the likely forms of 2D testing. Because non-verbal reasoning is not often taught under the national curriculum, it may not be recognised by all children and can be challenging in an exam setting. Question styles have regional differences and come in standard or multiple choice formats.
