Descriptive Topology and Functional Analysis II

In Honour of Manuel López-Pellicer Mathematical Work, Elche, Spain, June 7-8, 2018

This book is the result of a meeting on Topology and Functional Analysis, and is dedicated to Professor Manuel López-Pellicer's mathematical research. Covering topics in descriptive topology and functional analysis, including topological groups and Banach space theory, fuzzy topology, differentiability and renorming, tensor products of Banach spaces and aspects of C-theory, this volume is particularly useful to young researchers wanting to learn about the latest developments in these areas.
