

Pediatric Allergy

A Case-Based Collection with MCQs, Volume 1

This book comprises a collection of case-based chapters, submitted by physicians and pediatricians in all specialties and meticulously refined and selected to cover the most common and important aspects of *Pediatric Allergy* knowledge. Commonly encountered disorders such as allergic rhinitis, food allergy, and atopic dermatitis are covered among many others. Each chapter starts with a brief of the initial presentation and lab data of the patient, followed by a series of 3-6 multiple choice questions (MCQs), leading the reader to the diagnosis and best of practice in a step-wise manner. Clinical pearls presented as "practical points", and the MCQ format along with detailed answers, makes *Pediatric Allergy* an essential reading material that a pediatric allergologist cannot afford to miss.
