

Engineering in Dependability of Computer Systems and Networks

Proceedings of the Fourteenth International Conference on Dependability of Computer Systems DepCoS-RELCOMEX, July 1-5, 2019, Brunów, Poland

This book presents papers on various problems of dependability in computer systems and networks that were discussed at the 14th DepCoS-RELCOMEX conference, in Brunów, Poland, from 1st to 5th July 2019. Discussing new ideas, research results and developments in the design, implementation, maintenance and analysis of complex computer systems, it is of interest to researchers and practitioners who are dealing with dependability issues in such systems.

Dependability analysis came as a response to new challenges in the evaluation of contemporary complex systems, which should be considered as systems of people – with their needs and behaviours –interacting with technical communication channels (such as mobile activities, iCloud, Internet of Everything) and online applications, often operating in hostile environments. The diversity of topics covered, illustrates the variety of methods used in this area, often with the help of the latest results in artificial and computational intelligence.

Lieferfrist: bis zu 10 Tage

Artikelnummer: 9783030195007

Medium: Buch

ISBN: 978-3-030-19500-7

Verlag: Birkhäuser

Erscheinungstermin: 12.05.2019

Sprache(n): Englisch

Auflage: 1. Auflage 2020

Serie: Advances in Intelligent Systems and Computing

Produktform: Kartoniert

Gewicht: 855 g

Seiten: 554

Format (B x H): 155 x 235 mm
