

Creating Innovation Spaces

Impulses for Start-ups and Established Companies in Global Competition

This book offers fresh impulses from different industries on how to deal with innovation processes. Authors from different backgrounds, such as artificial intelligence, mechanical engineering, medical technology and law, share their experiences with enabling and managing innovation. The ability of companies to innovate functions as a benchmark to attract investors long-term. While each company has different preconditions and environments to adapt to, the authors give guidance in the fields of digitalization, workspaces and business model innovation.
