Progress in Information Geometry

Theory and Applications

This book focuses on information-geometric manifolds of structured data and models and related applied mathematics. It features new and fruitful interactions between several branches of science: Advanced Signal/Image/Video Processing, Complex Data Modeling and Analysis, Statistics on Manifolds, Topology/Machine/Deep Learning and Artificial Intelligence. The selection of applications makes the book a substantial information source, not only for academic scientist but it is also highly relevant for industry.

The book project was initiated following discussions at the international conference GSI'2019 – Geometric Science of Information that was held at ENAC, Toulouse (France).

Lieferfrist: bis zu 10 Tage

Artikelnummer: 9783030654610

Medium: Buch

ISBN: 978-3-030-65461-0

Verlag: Springer

Erscheinungstermin: 16.03.2022

Sprache(n): Englisch

Auflage: 1. Auflage 2021

Serie: Signals and Communication Technology

Produktform: Kartoniert

Gewicht: 441 g

Seiten: 274

Format (B x H): 155 x 235 mm
