New Perspectives in Software Engineering

Proceedings of the 10th International Conference on Software Process Improvement (CIMPS 2021)

This book contains a selection of papers from the 2021 International Conference on Software Process Improvement (**CIMPS'21**), held between the 20th and 22th of October in Torreón Coahuila, México as virtual venue. The CIMPS'21 is a global forum for researchers and practitioners that present and discuss the most recent innovations, trends, results, experiences and concerns in the several perspectives of Software Engineering with clear relationship but not limited to software processes, Security in Information and Communication Technology and Big Data Field.

The main topics covered are: Organizational Models, Standards and Methodologies, Software Process Improvement, Knowledge Management, Software Systems, Applications and Tools, Information and Communication Technologies and Processes in non-software domains (Mining, automotive, aerospace, business, health care, manufacturing, etc.) with a demonstrated relationship to Software Engineering Challenges.
