

Digitizing Production Systems

This book contains selected papers from International Symposium for Production Research 2021, held on October 7–9, 2021, online, Turkey. The book reports recent advances in production engineering and operations. It explores topics including

production research;

production management; operations management;

industry 4.0;

industrial engineering;

mechanical engineering;

engineering management; and

operational research.

Presenting real-life applications, case studies, and mathematical models, this book is of interest to researchers, academics, and practitioners in the field of production and operation engineering. It provides both the results of recent research and practical solutions to real-world problems.
