

Organizational Engineering, Coping with Complexity

Proceedings of the 18th International Conference on Industrial Engineering and Industrial Management (ICIEIM) – XXVIII Congreso de Ingeniería de Organización (CIO2024)

This book features a selection of papers presented at the 18th International Conference on Industrial Engineering and Industrial Management (ADINGOR), held on July 4-5, 2024, at Universidad Politécnica de Madrid, Spain. It offers cutting-edge insights into Industrial and Management Engineering, showcasing a broad spectrum of international perspectives. The contributions span diverse topics, including Supply Chain Management, Sustainability, Industry 5.0, Circular Engineering, and the impact of Organizational Engineering on Sustainable Development Goals. The book provides readers with a blend of theoretical advances, innovative methodologies, and practical applications.
