

Schur Analysis and Applications to Hypercomplex Analysis, Neural Networks, and Linear Systems

Chapman University, January 2024

This volume presents selected contributions from a conference held at Chapman University in January 2024 on Schur analysis and its applications. The papers, written by leading researchers in the field, are divided into four sections: function theory, harmonic analysis, and operator theory; Schur analysis and signal processing; hypercomplex analysis; and infinite dimensional analysis, probabilities, and non-commutative theory. The volume will be a valuable resource for mathematicians and other researchers interested in learning about the latest developments and applications of Schur analysis.

Lieferfrist: bis zu 10 Tage

Artikelnummer: 9783032023148

Medium: Buch

ISBN: 978-3-032-02314-8

Verlag: Birkhäuser

Erscheinungstermin: 12.05.2026

Sprache(n): Englisch

Auflage: Erscheinungsjahr 2026

Serie: Linear Operators and Linear Systems

Produktform: Gebunden

Seiten: 393

Format (B x H): 155 x 235 mm
