

Technological Innovations for Sustainable Development

Proceedings of the 6th International Conference DATA2025, Tangier, Morocco

This book highlights the latest advances in the field of information and communication technologies (ICTs) and various research domains crucial for sustainable development. It features original contributions from distinguished international scholars, introducing concepts presented at the 6th International Conference on Digital Age and Technological Advances for Sustainable Development, held in Tangier, Morocco, on May 7–9, 2025.

As a comprehensive resource, the book may benefit advanced students, researchers, and industry professionals seeking to navigate the landscape of sustainable technology and development amid recent developments in artificial intelligence, Industry 4.0, and the green economy. Furthermore, it builds upon insights and experiences from previous conference editions, making it a natural addition to the existing literature in the field.
