Intelligent Systems and Applications

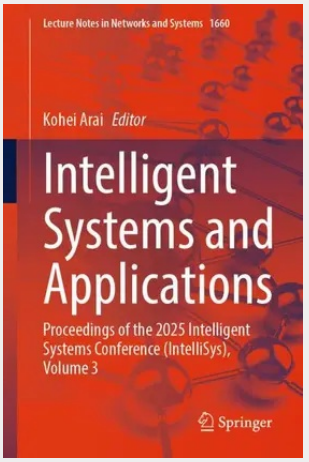

Proceedings of the 2025 Intelligent Systems Conference (IntelliSys), Volume 3

This book presents a curated selection of 169 peer-reviewed papers from a total of 470 submissions, covering key areas such as artificial intelligence, computer vision, robotics, and intelligent systems. The 11th Intelligent Systems Conference (IntelliSys) 2025, held in Amsterdam, the Netherlands, from 28–29 August 2025, brought together researchers, practitioners, and experts from around the world to share advancements in intelligent technologies. Conducted in a hybrid format, the conference facilitated global collaboration and participation.

The contributions reflect the latest research trends, practical applications, and emerging challenges in these domains.

The authors hope that these proceedings serve as a valuable resource for researchers, practitioners, and students, and that they inspire future work and collaborations in the field of intelligent systems.
