

Cosmetics

Controlled Efficacy Studies and Regulation

This fully updated and comprehensive guide provides in-depth exploration of the science behind cosmetic treatments, empowering dermatologists to optimize patient outcomes and achieve unparalleled aesthetic results. Covering agents as disparate as tanning lotions and barrier creams through anti-cellulite agents to neurotoxins and neurofillers, this book provides a thorough review of the use of drugs on the skin. *Cosmetics: Controlled Efficacy Studies and Regulation* represents an essential resource for understanding cosmetic dermatology drugs, their mode of action and use in the clinic and by patients. It provides a trustworthy companion to confidently guide all healthcare professionals managing and advising patients in this space.
