

New Coordinates for Creative Hybrid Space-Experiences

This open access book offers a multifaceted exploration of the concept of hybridity as it manifests across creative, technological, and spatial dimensions. Divided into three thematic sections, it provides a spectrum of critical analyses of hybrid environments in everyday life, architecture, art, design, education, and their broader societal ramifications. The book serves as a thought-provoking contribution to the study of hybrid environments, offering insights into the transformative intersections of technology, creativity, and human experience within contemporary society. It is indispensable for readers seeking a nuanced understanding of the transformative intersections of technology, creativity, and societal change.
