da Silva

Materials Design and Applications VI

This book discusses several issues relevant to materials design and applications. The focus is on fundamental research and application areas in the field of the design and application of engineering materials, predominantly within the context of mechanical engineering applications. This includes a wide range of materials engineering and technology, including metals, e.g., lightweight metallic materials, polymers, composites, and ceramics. Advanced applications include manufacturing of new materials, testing methods, multi-scale experimental and computational aspects. The book publishes selected papers presented at the 6th International Conference on Materials Design and Applications 2026 (MDA 2026), held during 2–3 July 2026

vorbestellbar, Erscheinungstermin ca. Februar 2027

Artikelnummer: 9783032420008
Medium: Buch
ISBN: 978-3-032-42000-8
Verlag: Springer
Erscheinungstermin: 24.02.2027
Sprache(n): Englisch
Auflage: Erscheinungsjahr 2027
Serie: Advanced Structured Materials
Produktform: Gebunden
Seiten: 191
Format (B x H): 155 x 235 mm
