

Optimization with PDE Constraints

ESF Networking Program 'OPTPDE'

This book on PDE Constrained Optimization contains contributions on the mathematical analysis and numerical solution of constrained optimal control and optimization problems where a partial differential equation (PDE) or a system of PDEs appears as an essential part of the constraints. The appropriate treatment of such problems requires a fundamental understanding of the subtle interplay between optimization in function spaces and numerical discretization techniques and relies on advanced methodologies from the theory of PDEs and numerical analysis as well as scientific computing. The contributions reflect the work of the European Science Foundation Networking Programme 'Optimization with PDEs' (OPTPDE).

Artikelnummer: 9783319080246

Medium: Buch

ISBN: 978-3-319-08024-6

Verlag: Birkhäuser

Erscheinungstermin: 23.09.2014

Sprache(n): Englisch

Auflage: Erscheinungsjahr 2014

Serie: Lecture Notes in Computational Science and Engineering

Produktform: Gebunden

Gewicht: 7568 g

Seiten: 402

Format (B x H): 160 x 241 mm
