Mechatronics 2017

Recent Technological and Scientific Advances

This book presents nearly 90 carefully selected contributions at the 12th International Conference Mechatronics, which took place in Brno, Czech Republic on 6–8 September 2017. Reflecting the most progressive and constantly changing areas of mechatronics, these proceedings includes papers concerning modeling and simulation, automatic control, robotics, sensors and actuators, electrical machines, and energy harvesting. It not only offers inspiration, but also deepens readers' interdisciplinary and integrated understanding of modern engineering. The book is intended for experts in the integration of electronic, mechanical, control and computer sciences.

Presents the latest research on mechatronics Includes the outcomes of the 12th International Conference on Mechatronics held on 6-8 September 2017 in Brno, Czech RepublicWritten by experts in the field
