

Current Trends in Reliability, Availability, Maintainability and Safety

An Industry Perspective

Containing selected papers from the ICRESH-ARMS 2015 conference in Lulea, Sweden, collected by editors with years of experiences in Reliability and maintenance modeling, risk assessment, and asset management, this work maximizes reader insights into the current trends in Reliability, Availability, Maintainability and Safety (RAMS) and Risk Management.

Featuring a comprehensive analysis of the significance of the role of RAMS and Risk Management in the decision making process during the various phases of design, operation, maintenance, asset management and productivity in Industrial domains, these proceedings discuss key issues and challenges in the operation, maintenance and risk management of complex engineering systems and will serve as a valuable resource for those in the field.

Artikelnummer: 9783319795065

Medium: Buch

ISBN: 978-3-319-79506-5

Verlag: Palgrave Macmillan

Erscheinungstermin: 27.03.2019

Sprache(n): Englisch

Auflage: Softcover Nachdruck of the original 1. Auflage 2016

Serie: Lecture Notes in Mechanical Engineering

Produktform: Kartoniert

Gewicht: 1124 g

Seiten: 738

Format (B x H): 155 x 235 mm
