

Advances in Computational Fluid-Structure Interaction and Flow Simulation

New Methods and Challenging Computations

This contributed volume celebrates the work of Tayfun E. Tezduyar on the occasion of his 60th birthday. The articles it contains were born out of the Advances in Computational Fluid-Structure Interaction and Flow Simulation (AFSI 2014) conference, also dedicated to Prof. Tezduyar and held at Waseda University in Tokyo, Japan on March 19-21, 2014. The contributing authors represent a group of international experts in the field who discuss recent trends and new directions in computational fluid dynamics (CFD) and fluid-structure interaction (FSI). Organized into seven distinct parts arranged by thematic topics, the papers included cover basic methods and applications of CFD, flows with moving boundaries and interfaces, phase-field modeling, computer science and high-performance computing (HPC) aspects of flow simulation, mathematical methods, biomedical applications, and FSI. Researchers, practitioners, and advanced graduate students working on CFD, FSI, and related topics will find this collection to be a definitive and valuable resource.

Lieferfrist: bis zu 10 Tage

Artikelnummer: 9783319821948

Medium: Buch

ISBN: 978-3-319-82194-8

Verlag: Birkhäuser

Erscheinungstermin: 16.06.2018

Sprache(n): Englisch

Auflage: Softcover Nachdruck of the original 1. Auflage 2016

Serie: Modeling and Simulation in Science, Engineering and Technology

Produktform: Kartoniert

Gewicht: 768 g

Seiten: 500

Format (B x H): 155 x 235 mm
