

Engineering Asset Management 2016

Proceedings of the 11th World Congress on Engineering Asset Management

These proceedings gather selected peer-reviewed papers from the 11th World Congress on Engineering Asset Management (WCEAM), which was held in Jiuzhaigou, China, on 25–28 July, 2016.

These proceedings cover a wide range of topics in engineering asset management, including:

- strategic asset management;
- condition monitoring and diagnostics;
- integrated intelligent maintenance;
- sensors and devices;
- information quality and management;
- sustainability in asset management;
- asset performance and knowledge management;
- data mining and AI techni

ques in asset management;

- engineering standards; and
- education in engineering asset management.

The breadth and depth of these state-of-the-art, comprehensive proceedings make them an excellent resource for asset management practitioners, researchers and academics, as well as undergraduate and postgraduate students.

These proceedings gather selected peer-reviewed papers from the 11th World Congress on Engineering Asset Management (WCEAM), which was held in Jiuzhaigou, China, on 25–28 July, 2016. These proceedings cover a wide range of topics in engineering asset management, including:· strategic asset management;· condition monitoring and diagnostics;· integrated intelligent maintenance;· sensors and devices;· information quality and management;· sustainability in asset management;· asset performance and knowledge management;· data mining and AI techniques in asset management;· engineering standards; and· education in engineering asset management. The breadth and depth of these state-of-the-art, comprehensive proceedings make them an excellent resource for asset management practitioners, researchers and academics, as well as undergraduate and postgraduate students.
