Physics with MAPLE

The Computer Algebra Resource for Mathematical Methods in Physics

76,90 €
71,87 € (zzgl. MwSt.)

Lieferfrist: bis zu 10 Tage

Der Autor dieses Bandes, erfahren in der Anwendung von Computeralgebra auf Probleme der relativistischen Astrophysik und in der Lehre allgemein, führt Sie in mathematische Methoden mit MAPLE ein. Numerische und analytische Verfahren werden besprochen und die Ergebnisse in Form interaktiver Graphiken dargestellt. Mit rund 180 Simulationsbeispielen und "Forschungsaufgaben" (zum Teil auch ohne Lösungsangaben) kann das Gelernte gleich umgestezt werden. Besonders geeignet für Studenten unterer Semester!

Written by an experienced physicist who is active in applying computer algebra to relativistic astrophysics and education, this is the resource for mathematical methods in physics using MapleTM and MathematicaTM. Through in-depth problems from core courses in the physics curriculum, the author guides students to apply analytical and numerical techniques in mathematical physics, and present the results in interactive graphics. Around 180 simulating exercises are included to facilitate learning by examples. This book is a must-have for students of physics, electrical and mechanical engineering, materials
scientists, lecturers in physics, and university libraries.
* Free online MapleTM material at
http://www.wiley-vch.de/templates/pdf/maplephysics.zip
* Free online MathematicaTM material at
http://www.wiley-vch.de/templates/pdf/physicswithmathematica.zip
* Solutions manual for lecturers available at www.wiley-vch.de/supplements/
