Butkovic / Kraljevic / Kurepa

Functional Analysis

Proceedings of a Conference held at Dubrovnik, Yugoslavia, November 2-14, 1981

Spectral functions of definitizable operators in Krein spaces.- Semigroups and cosine functions.- Strongly continuous operator cosine functions.- Rank and index in Banach algebras.- Fixed point theorems in not necessarily locally convex topological vector spaces.- to lie groups and their representations.- Probability and geometry of Banach spaces.- Completions and the null-completion of vector measures.- On some counterexamples in measure theory.

Spectral functions of definitizable operators in Krein spaces.- Semigroups and cosine functions.- Strongly continuous operator cosine functions.- Rank and index in Banach algebras.- Fixed point theorems in not necessarily locally convex topological vector spaces.- to lie groups and their representations.- Probability and geometry of Banach spaces.- Completions and the null-completion of vector measures.- On some counterexamples in measure theory.

Artikelnummer: 9783540115946
Medium: Buch
ISBN: 978-3-540-11594-6
Verlag: Springer
Erscheinungstermin: 01.09.1982
Sprache(n): Englisch
Auflage: 1. Auflage 1982
Serie: Lecture Notes in Mathematics
Produktform: Kartoniert
Gewicht: 388 g
Seiten: 240
Format (B x H): 155 x 235 mm
