Complex Analysis

Proceedings of the Summer School. Held at the International Centre for Theoretical Physics, Trieste, July 5 - 30, 1980

Twistor Theory (The Penrose Transform).- An Introduction to Analysis on Complex Manifolds.- Complex Analysis and Complexes of Differential Operators.- Deformations of Complex Structures and Holomorphic Vector Bundles.- to Value Distribution Theory of Meromorphic Maps.- Compact Hausdorff Transversally Holomorphic Foliations.- Holomorphic Vectorbundles and Yang Mills Fields.

Lieferfrist: bis zu 10 Tage

Artikelnummer: 9783540115960

Medium: Buch

ISBN: 978-3-540-11596-0

Verlag: Springer

Erscheinungstermin: 01.09.1982

Sprache(n): Englisch

Auflage: 1. Auflage 1982

Serie: Lecture Notes in Mathematics

Produktform: Kartoniert

Gewicht: 1260 g

Seiten: 430

Format (B x H): 155 x 235 mm
