

Problems and Methodologies in Mathematical Software Production

International Seminar, Held at Sorrento, Italy, November 3-8, 1980

Basic concepts for computational software.- Implementation and testing of function software.- Program correctness and machine arithmetic.- Preparing the NAG library.- Computer-based documentation for the NAG library.- Transportable Numerical Software.- Tools for numerical software engineering.- Portability and other source management problems.- Remarks about performance profiles.- The role of computer centers in the field of mathematical software.- Guidelines for managing mathematical software libraries at computer centers.- Panel session on the challenges for developers of mathematical software.

Artikelnummer: 9783540116035

Medium: Buch

ISBN: 978-3-540-11603-5

Verlag: Springer

Erscheinungstermin: 01.09.1982

Sprache(n): Englisch

Auflage: 1. Auflage 1982

Serie: Lecture Notes in Computer Science

Produktform: Kartoniert

Gewicht: 435 g

Seiten: 274

Format (B x H): 155 x 235 mm
