Differential Geometry

Proceedings of the Nordic Summer School held in Lyngby, Denmark, Jul. 29-Aug. 9, 1985

The Nordic Summer School 1985 presented to young researchers the mathematical aspects of the ongoing research stemming from the study of field theories in physics and the differential geometry of fibre bundles in mathematics. The volume includes papers, often with original lines of attack, on twistor methods for harmonic maps, the differential geometric aspects of Yang-Mills theory, complex differential geometry, metric differential geometry and partial differential equations in differential geometry. Most of the papers are of lasting value and provide a good introduction to their subject.

Artikelnummer: 9783540180128

Medium: Buch

ISBN: 978-3-540-18012-8

Verlag: Springer

Erscheinungstermin: 15.07.1987

Sprache(n): Englisch

Auflage: 1987

Serie: Lecture Notes in Mathematics

Produktform: Kartoniert

Gewicht: 458 g

Seiten: 288

Format (B x H): 155 x 235 mm
