

Bioinformatics Using Computational Intelligence Paradigms

Bioinformatics and computational intelligence are undoubtedly remarkably fast growing fields of research and real-world applications with enormous potential for current and future developments. Bioinformatics Using Computational Intelligence Paradigms contains recent theoretical approaches and guiding applications of biologically inspired information processing systems (computational intelligence) against the background of bioinformatics. This carefully edited monograph combines the latest results of bioinformatics and computational intelligence, and offers promising cross-fertilization and interdisciplinary work between these growing fields.

Artikelnummer: 9783540229018
Medium: Buch
ISBN: 978-3-540-22901-8
Verlag: Springer
Erscheinungstermin: 17.01.2005
Sprache(n): Englisch
Auflage: 2005
Serie: Studies in Fuzziness and Soft Computing
Produktform: Gebunden
Gewicht: 1090 g
Seiten: 211
Format (B x H): 160 x 241 mm
