

Active Mining

Second International Workshop, AM 2003, Maebashi, Japan, October 28, 2003, Revised Selected Papers

This volume contains the papers selected for presentation at the 2nd International Workshop on Active Mining (AM 2003) which was organized in conjunction with the 14th International Symposium on Methodologies for Intelligent Systems (ISMIS 2003), held in Maebashi City, Japan, 28–31 October, 2003. The workshop was organized by the Maebashi Institute of Technology in - operation with the Japanese Society for Artificial Intelligence. It was sponsored by the Maebashi Institute of Technology, the Maebashi Convention Bureau, the Maebashi City Government, the Gunma Prefecture Government, JSAI SIGKBS (Japanese Artificial Intelligence Society, Special Interest Group on Knowledge- Based Systems), a Grant-in-Aid for Scientific Research on Priority Areas (No. 759) "Implementation of Active Mining in the Era of Information Flood," US AFOSR/AOARD, the Web Intelligence Consortium (Japan), the Gunma Information Service Industry Association, and Ryomo Systems Co., Ltd. ISMIS is a conference series that was started in 1986 in Knoxville, Tennessee.

Since then it has been held in Charlotte (North Carolina), Knoxville (Tennessee), Torin (Italy), Trondheim (Norway), Warsaw (Poland), Zakopane (Poland), and Lyon (France). The objective of this workshop was to gather researchers as well as practitioners who are working on various research fields of active mining, share their learned experiences, and shed light on the future development of active mining.
