

Combinatorial Pattern Matching

The 16th Annual Symposium on Combinatorial Pattern Matching was held on Jeju Island, Korea on June 19–22, 2005. Previous meetings were held in Paris, London, Tucson, Padova, Asilomar, Helsinki, Laguna Beach, Aarhus, Piscataway, Warwick, Montreal, Jerusalem, Fukuoka, Morelia, and Istanbul over the years 1990–2004. In response to the call for papers, CPM 2005 received a record number of 129 papers. Each submission was reviewed by at least three Program Committee members with the assistance of external referees. Since there were many high-quality papers, the Program Committee's task was extremely difficult. Through an extensive discussion the Program Committee accepted 37 of the submissions to be presented at the conference. They constitute original research contributions in combinatorial pattern matching and its applications. In addition to these selected papers, CPM 2005 had three invited presentations, by Esko Ukkonen from the University of Helsinki, Ming Li from the University of Waterloo, and Naftali Tishby from The Hebrew University of Jerusalem. We would like to thank all Program Committee members and external referees for their excellent work, especially given the demanding time constraints; they gave the conference its distinctive character. We also thank all who submitted papers for consideration; they all contributed to the high quality of the conference. Finally, we thank the Organizing Committee members and the graduates who worked hard to put in place the logistical arrangements of the conference. It is their dedicated contribution that made the conference possible and enjoyable.
