

Membrane Computing

6th International Workshop, WMC 2005, Vienna, Austria, July 18-21, 2005, Revised Selected and Invited Papers

The present volume is based on papers presented at the 6th Workshop on Membrane Computing, WMC6, which took place in Vienna, Austria, in the period July 18–21, 2005. The first three workshops were organized in Curtea de Argeș, Romania – they took place in August 2000 (with the proceedings published in Lecture Notes in Computer Science, volume 2235), in August 2001 (with a selection of papers published as a special issue of Fundamenta Informaticae, volume 49, numbers 1–3, 2002), and in August 2002 (with the proceedings published in Lecture Notes in Computer Science, volume 2597). The fourth and the fifth workshops were organized in Tarragona, Spain, in July 2003, and in Milan, Italy, in June 2004, with the proceedings published as volumes 2933 and 3365, respectively, of Lecture Notes in Computer Science. The pre-proceedings of WMC6 were published by the Institute for Computer Languages of the Vienna University of Technology, and they were available during the workshop. Conforming with tradition, this workshop, too, was a lively scientific event, with many questions and engaged discussions following presentations of papers. The current volume is based on a selection of papers from the pre-proceedings. These papers were significantly modified according to the discussions that took place during the workshop, and all the selected papers were additionally refereed.
