Software Process Technology

9th International Workshop, EWSPT 2003, Helsinki, Finland, September 1-2, 2003, Proceedings

Committee (Jean-Claude D- niame, Jacky Estublier, Carlo Ghezzi, Carlo Montangero, Leon Osterweil, Dewayne Perry, and Brian Warboys) for providing timely and signi?cant reviews, and for their substantialeffortinmakingEWSPT-9asuccessfulworkshop. This year the workshop was held in conjunction with the joint European Software EngineeringConferenceandACMSIGSOFTSymposiumontheFoundationsofSo- ware Engineering. I would like to acknowledge the General Chair, Jukka Paakki, and themembersoftheOrganizingCommitteefortheirassistanceduringtheorganization ofEWSPT-9asaco-locatedworkshop.
Iwouldalsoliketoacknowledgethepromptandprofessionalsupportfrom Springer- Verlag, who published these proceedings in printed and electronic volumes as part of theLectureNotesinComputerScienceseries.

Invited Talk.- Process Landscaping: From Software Process Modelling to Designing Mobile Business Processes.- Research and Experience Papers.- Empirical Validation of the Prospect Method for Systematic Software Process Elicitation.- Formalizing Rework in Software Processes.- Lessons Learned and Recommendations from Two Large Norwegian SPI Programmes.- An Approach and Framework for Extensible Process Support System.- Quality Ensuring Development of Software Processes.- A UML-Based Approach to Enhance Reuse within Process Technology.- Integrated Measurement for the Evaluation and Improvement of Software Processes.- Process Support for Evolving Active Architectures.- Providing Highly Automated and Generic Means for Software Deployment Process.- Flexible Static Semantic Checking Using First-Order Logic.- A Compliant Environment for Enacting Evolvable Process Models.- Position Paper.- Decentralised Coordination for Software Process Enactment.
