

Computing and Combinatorics

7th Annual International Conference, COCOON 2001, Guilin, China, August 20-23, 2001, Proceedings

strong support and all program committee members, their support staff, and subreferees for their excellent work within demanding time constraints. I would also like to thank all authors for submitting their papers to the conference. I am grateful to Steve Tate for letting me use the ACM SIGACTE electronics-mission service, Minghui Li for helping me create conference web pages, and Richard Cheek for providing systems support. Finally, I would like to express my gratitude to Ding-Zhu Du, Xudong Hu, and all local organizers for their hard work in making this meeting possible and enjoyable. August 2001 Jie Wang
