

The Semantic Web - ISWC 2002

This volume contains the papers presented at the First International Semantic Web Conference (ISWC 2002) held in Sardinia, Italy, 9–12th June, 2002. The conference followed on from the highly successful Semantic Web Working Symposium held at Stanford University, USA in 2001. A total of 133 papers were submitted to ISWC 2002, comprising 95 research papers, 22 position papers, and 16 system description papers. Each submission was evaluated by at least two referees, mainly members of the Program Committee. This resulted in the selection of 40 papers for presentation at the conference and publication in this volume. Of these, 27 are research papers, 6 are position papers, and 7 are system description papers. We would like to thank the many people who made ISWC 2002 possible. In particular, we are grateful to the following groups and individuals: Jean Pan for help with the conference management software and proceedings; the program committee for their reviewing efforts and advice on organizational details; Michele Missiko and Nicoletta Dessì for conference organization and local coordination; Jérôme Euzenat for financial organization and the conference web site; Asunción Gómez-Pérez for organizing the tutorials; Raphael Malyankar for organizing the poster session; Stefan Staab, Siegfried Handschuh, and Marc Ehrig for organizing semantic markup; Deborah McGuinness and Ying Ding for organizing sponsorship; and the sponsors themselves for their moral and financial support.
