ESOP '90

3rd European Symposium on Programming, Copenhagen, Denmark, May 15-18, 1990, Proceedings

This volume presents the proceedings of a conference on programming and programming languages. It contains original research contributions addressing fundamental issues and important developments in the design, specification and implementation of programming languages and systems. Topics include: - Program development: specification, methodology, tools, environments; - Programming language concepts: types, data abstraction, parallelism, real-time; - Language implementation techniques: compilers, interpreters, abstract machine design, optimization; - Programs as data objects: abstract interpretation, program transformation, partial evaluation; - Programming styles: imperative, functional, predicative, object-oriented.

Proceedings of a conference on programming and programming languages. Topics include program development, programming language concepts, implementation techniques, programs as data objects, programming styles.
