

Preconditioned Conjugate Gradient Methods

Proceedings of a Conference held in Nijmegen, The Netherlands, June 19-21, 1989

Modified incomplete factorization strategies.- On some parallel preconditioned CG schemes.- Preconditioning indefinite systems arising from mixed finite element discretization of second-order elliptic problems.- A class of preconditioned conjugate gradient methods applied to finite element equations.- Recent vectorization and parallelization of ITPACKV.- On the sparsity patterns of hierarchical finite element matrices.- Solving positive (semi)definite linear systems by preconditioned iterative methods.- The convergence behaviour of preconditioned CG and CG-S in the presence of rounding errors.- Data reduction (dare) preconditioning for generalized conjugate gradient methods.- Analysis of a recursive 5-point/9-point factorization method.- Iteration method as discretization procedures.

Artikelnummer: 9783540535157

Medium: Buch

ISBN: 978-3-540-53515-7

Verlag: Springer

Erscheinungstermin: 12.12.1990

Sprache(n): Englisch

Auflage: 1. Auflage 1990

Serie: Lecture Notes in Mathematics

Produktform: Kartoniert

Gewicht: 330 g

Seiten: 204

Format (B x H): 155 x 235 mm
