

Logics in AI

European Workshop JELIA '92, Berlin, Germany, September 7-10, 1992. Proceedings

This volume contains the proceedings of JELIA '92, les Journées Européennes sur la Logique en Intelligence Artificielle, or the Third European Workshop on Logics in Artificial Intelligence. The volume contains 2 invited addresses and 21 selected papers covering such topics as: - Logical foundations of logic programming and knowledge-based systems, - Automated theorem proving, - Partial and dynamic logics, - Systems of nonmonotonic reasoning, - Temporal and epistemic logics, - Belief revision. One invited paper, by D. Vakarelov, is on arrow logics, i.e., modal logics for representing graph information. The other, by L.M. Pereira, J.J. Alferes, and J.N. Aparicio, is on default theory for well founded semantics with explicit negation.
