

## Parallel Image Analysis

Second International Conference, ICPIA '92, Ube, Japan, December 21-23, 1992.  
Proceedings

This volume contains the papers selected for presentation at the Second International Conference on Parallel Image Analysis (ICPIA '92), held in Ube, Japan, December 21-23, 1992. The conference topics are data structures, parallel algorithms and architectures, neural networks, computational vision, syntactic generation and recognition, and multidimensional models. The first meeting with these topics was the International Colloquium on Parallel Image Processing, which took place in Paris in June 1991. The aim of the meetings is to bring together specialists from various countries who are interested in the topics and to stimulate theoretical and practical research in the field of parallel image processing and analysis. The volume contains three invited papers, a summary of a tutorial lecture, and twenty selected and refereed communications.
