

## Object Technologies for Advanced Software

First JSSST International Symposium, Kanazawa, Japan, November 4-6, 1993.  
Proceedings

This volume constitutes the proceedings of the First International Symposium organized by the Japan Society for Software Science and Technology. The symposium was held in Kanazawa, Japan, November 4-6, 1993 and attracted many researchers from academia and industry as well as ambitious practitioners. Object technologies, in particular object-oriented programming, object-oriented databases, and software object bases, currently attract much attention and hold a great promise of future research and development in diverse areas of advanced software. The volume contains besides 6 invited presentations by renowned researchers and 25 contributed papers carefully selected by an international program committee from a total of 92 submissions.
