

High-Performance Computing and Networking

High-performance computing and networking (HPCN) is driven by several initiatives in Europe, the United States, and Japan. In Europe several groups encouraged the Commission of the European Communities to start an HPCN programme. This two-volume work presents the proceedings of HPCN Europe 1994. **Volume 2** includes sections on: networking, future European cooperative working possibilities in industry and research, HPCN computer centers aspects, performance evaluation and benchmarking, numerical algorithms for engineering, domain decomposition in engineering, parallel programming environments, load balancing and performance optimization, monitoring, debugging, and fault tolerance, programming languages in HPC, compilers and data parallel structures, architectural aspects, and late papers.

Artikelnummer: 9783540579816

Medium: Buch

ISBN: 978-3-540-57981-6

Verlag: Springer

Erscheinungstermin: 07.04.1994

Sprache(n): Englisch

Auflage: 1994

Serie: Lecture Notes in Computer Science

Produktform: Kartoniert

Gewicht: 1680 g

Seiten: 526

Format (B x H): 155 x 235 mm
